

# LT 50 Altus 25/17

Blind Solutions

somfy®

Awning motor for external solar protection

Ref: 1043170

## Description

- **Altus 50 RTS: the polyvalent radio integrated motor.**
- **High speed.**
- A polyvalent solution designed to optimize the installation and use of different application of the house (folding arm awning, canopies, screen,) and perfectly adapted to react to solar sensor.
- Simplicity of integration and ease of installation: same mechanical interface than rest of Somfy range (Hi-pro head), wide range of torque, setting through remote and same setting principles than all RTS motors.
- A solution for long time: compatible with all RTS Somfy range for easy upgrading, self-protection of the motor when the crown stops.
