

Lighting Slim Receiver RTS

somfy®

Ref: 1822215

Description

The Lighting Slim Receiver RTS is a radio receiver thought for integration, perfect for light within awnings or ramps.

Blind Solutions

Benefits

- Light can be easily controlled from different locations (with several RTS controls)
- Drive awning, patio lights and heater with one control thanks to Somfy multi-channels' remote controls (new RTS equipment can be added at anytime)
- Multi-application outdoor usage : operates lights of awning, façade, garden, gate, floor swimming pool, etc.
- Easy integration – can be easily hidden within or close to end product.
