

# SITUO 5 Variation A/M IO Titane

Ref: 1811277

somfy®

## Description

With its central thumbwheel, Situo Variation IO is ideal for controlling and adjusting the slats of your Venetian blinds, or to adjust the light intensity of your brightness controls. It features an Auto / Manual function to take over from automatic controllers.

It's also the perfect solution to manage the equipment on your terrace : blinds, motorized valances and light.
